

# Attention Rose Avenue Community!

We are pleased to welcome the Los Angeles Conservation Corps to our Neighborhood.

#### **What is LACC, and how do we help Los Angeles?**

We are a locally-based nonprofit that has been helping young people develop themselves by participating in environmental conservation projects and classes since 1986. At LACC, we offer a combination of conservation, education and youth services to each participant, to prepare them for the future of their choice. In return, they participate in environmental and community conservation projects that benefit greater Los Angeles.

Through the teamwork of Local Residents and City Councilman Bill Rosendahl's Office, members of the LACC have generously volunteered to **clean up Rose Avenue twice a month.**

**Please welcome the “Clean and Green Crew” to our neighborhood and kindly thank them when you see them doing their work.**
